

HISTOLOGY

REPORT SENT TO:

 97- I

TRIAL NO:

REVIEWER CODE:

CENTRE CODE:

T. Ilem.

ADDITIONAL STUDIES SPECIFY

Child 8: ileal biopsy

MICRO

	NONE	MILD	MODERATE	SEVERE	SCORE
ACUTE INFLAMMATION (POLYMORPHS)	0	1 Occasional lamina propria polymorphs	2 Crypt abscesses	3 Frank pus	A 0-3 0
CHRONIC INFLAMMATION LYMPHOCYTES AND PLASMA CELLS	0	1 Slight increase in lamina propria mononuclear cells	2 Moderate increase	3 Marked increase with >2 lymphoid aggregates/follicles/biopsy	C 0-3 0 1 Paneth
DESTRUCTIVE EPITHELIAL CHANGE	0	1 Superficial erosions	2 Aphthoid ulcers	3 Frank ulceration	D 0-3 0
REACTIVE/NEOPLASTIC EPITHELIAL ARCHITECTURAL CHANGE	0	1 Bifid glands Goblet cell depletion	2 Gland atrophy + disarray pyloric/Paneth cell metaplasia	3 Villous change, "Dysplasia"	R 0-3 0
					TOTAL

OTHER: NOTE

Granuloma	Eosinophil	Vasculitis
Thrombosis (inc pink plugs)	Malignancy	

CONCLUSION (Circle box)

Typical	Crohn's	UC
Probable	Crohn's	UC

Other eg. infection

ischaemia

non-specific

1/1 10.1
