

**(On September 12, 2007, the Petitioners' Steering Committee filed a compact disc containing the "PSC Master Reference List" of scientific articles. This disc has been placed into the record of the Omnibus Autism Proceeding, but its contents, except for the list of titles that follows this page, are not being placed on the website at this time. This is due to the fact that most of the scientific articles published in professional journals are copyrighted material.)**
